EDUCATION

Ph.D. Clinical Psychology Pacific University GPA: 3.95	August 2021 Hillsboro, OR
Master of Science – Clinical Psychology Pacific University	August 2018 Hillsboro, OR
Master of Arts - Counseling Psychology Pacific University Adult Track / Organizational Behavior Certificate GPA: 4.00	August 2015 Hillsboro, OR
Bachelor of Science - Psychology Portland State University Emphasis on Industrial / Organizational Psychology	March 2013 Portland, OR

AWARDS AND HONORS

2022	National Academy of Neuropsychology Policy & Planning Committee
2021	United States Patent #10,902,714 B2 Alert System for First Responders
2019	Healthcare Project Manager Certification – Kaiser Permanente NW
2019	Advanced Program Development Fellow – Kaiser Permanente NW
2019	Spring Pacific University Student Senate Research Funds Grant
2019	Judge - Berglund Fellowship Inspired Ideas Competition
2018-2021	Ph.D. program Research Assistantship
2018-2019	Program Development Fellow – Kaiser Permanente NW
2017-2018	Berglund Fellowship
2015-2017	Ph.D. program Research Assistantship
2015	Director's Award counseling psychology program
2015	Outstanding Student Status counseling psychology program

CLINICAL EXPERIENCE

Archer Apollo Neuropsychology LLC – Principal Owner Licensed Psychologist Specializing in Neuropsychology	June 1 st , 2024, to Present
--	---

Providing lifespan (ages 10-99) neuropsychological and psychological evaluations, concussion management, and cognitive wellness screening to patients in a private practice clinic.

Compass Pain and Wellness - Portland, OR **January 2026 to Present**

Traumatic Brain injury Cognitive Rehabilitation Program Developer

Worked with physicians, physical therapists, and leadership at Compass to develop a cognitive evidence-based rehabilitation program based on the guidelines of the American Congress of Rehabilitative Medicine (ACRM) for patients experiencing mild to moderate traumatic brain injuries (mTBIs). Developed a program admission pre-post screening battery and trained neuropsychometrists to administer it. Trained technicians to administer psychoeducation and cognitive rehabilitation skills courses, as part of the multidisciplinary program.

Neuropsychology And Concussion Management – Rockport, ME **September 1st, 2023,**
Licensed Psychologist Specializing in Neuropsychology – Contractor **to 6/1/2025**

Providing lifespan clinical and neuropsychological evaluations, forensic evaluations, concussion management, and cognitive wellness screening to patients in a private practice clinic. Also providing individual evidence-based therapy on a limited basis using ACT, DBT and CBT. See addendum for tests administered.

Neuropsychology And Concussion Management – Rockport, ME **(1345 hours)**
Neuropsychology Post-Doctoral Resident **February 12th, 2022 – November**

12th 2022 part time
3/1/23 to 8/30/23 full time

Supervisor: Kendra L. Bryant, Ph.D., ABPP-CN

Provided lifespan clinical and neuropsychological evaluations, concussion management, cognitive skills training, and cognitive wellness screening to patients in a private practice clinic. Also providing medical records review for forensic cases. Assisted in clinic administration including recruiting therapists and neuropsychologists to the practice, marketing and brand development, developing new referral sources, and program development. Specific program development projects included developing standardized template test lists for specific batteries to improve efficiency. See addendum for tests administered.

Maine VA Lewiston CBOC - Lewiston, ME **August 30th, 2021 – February 28th, 2023**
Neuropsychology Resident

Supervisors: Joshua Caron, Ph.D., ABPP-CN and Katherine Charpentier, Psy.D., ABPP-CN

Providing adult neuropsychological testing and assessment services to the diverse Veteran population of Maine. Facilitating CogSmart cognitive rehabilitation and training groups for Veterans in need of improved compensatory skills and better strategies to manage cognitive deficits. Participating in COVID-19 neuropsychology research and program development projects, cognitive rehabilitation programs, and presentation of didactic seminars on the cerebrovascular system, cerebellum, neurotoxicity, and infectious diseases of the brain. Working on a program development project to develop a unified report template based on the guidelines established by the Stakeholders' project on neuropsychology report writing. See addendum for tests administered.

Missouri Health Sciences Consortium – Columbia, MO **November 2019 - October 2020**

**University of Missouri Department of Health
& The Truman Veterans Administration Hospital
Neuropsychology Intern**

First Major Rotation: UM-DHP Adult Neuropsychology

Supervisor: Laura Schopp, Ph.D., ABPP-CN

Utilized a flexible battery approach to neuropsychological assessment with an emphasis on functional utility. Inpatient and outpatient consultation provided to all UMC School of Medicine Departments including PM&R, Neurology, Neurosurgery, Psychiatry, Internal Medicine and Family Medicine. These services were provided to various hospitals in central Missouri. Assessment training included evaluation of traumatic brain injury, pre-surgical epilepsy assessment, dementia, brain injury secondary to infectious disease, and stroke. Particular emphasis was placed on competence in test administration, interpretation and case conceptualization, the use of appropriate normative data, report writing, and provision of feedback to patients, families, and referral sources. Attended monthly brain cuttings at the UM Hospital morgue. Participated in bi-weekly neurosurgery grand rounds and assisted in presenting neuropsychology evaluations for pre and post-surgical epilepsy patients. Populations served ranged in age from 18 to 97, and included active duty soldiers and civilians from diverse backgrounds. See addendum for tests administered.

First Minor Rotation: BHC Primary Care University of Missouri Family Medicine

Supervisor: Nikole Jeanne Cronk, Ph.D.

This rotation involved provision of behavioral health consultant (BHC) psychological services to patients with a range of behavioral and mental health concerns in an integrated family medicine clinic. Provided brief assessment and interventions as well as consultations with family medicine physicians as part of the interdisciplinary team in a primary care setting. Developed opportunities to streamline processes, organize resources enhance BHC accessibility to the healthcare teams and open lines of communication with physicians.

Second Major Rotation: Inpatient Neuropsychology UM-DHP, Rusk Rehabilitation Center

Supervisor: Renee Stucky, Ph.D., ABPP-RP

Worked in an inpatient rehabilitation setting to provide neuropsychological and behavioral health services to individuals receiving rehabilitation for strokes, TBIs, spinal cord injuries, and physical trauma. Worked on an interdisciplinary team of physiatrists, anesthesiologists, nurses, and therapists to provide integrated medical and psychological services to persons with chronic pain from across the MU Health Sciences Center. Provided RBANs plus neuropsychological evaluations, scoring and interpretation, and helped direct recommendations for treatment.

Second Minor Rotation: Neuropsychology Consult for Neurosurgery UM-Hospital

Supervisor: Kimberly C. Kimchi, Ph.D.

Neurosurgery biopsychosocial quality of life & perceived stress intervention efficacy research. Organized and taught research team REDCap research management tools. Coordinated data collection. Worked to verify the accuracy of several additional datasets.

Third Major Rotation: OUD/SUD Compass Health

Supervisor: Steven Edwards, Ph.D.

Inpatient substance use and mental health treatment facility. Co-facilitated process groups, skills groups, treatment groups, and education groups for adult men and women in a 16-bed inpatient facility. Shadowed individual therapy, nursing, and case managers for one-on-one sessions. Learned about clinic operations, human resources, program evaluation strategies, and management methodology from weekly meetings with clinic director. Engaged in frequent didactic trainings on OUD/SUD treatment via Compass Health's Relias training platform.

Third Minor Rotation: Adult Neuropsychology – UM-DHP

Supervisor: Eric Hart, Psy.D., ABPP-CN

Utilized a flexible battery approach to neuropsychological assessment with an emphasis on functional utility. Inpatient and outpatient consultation were provided to all UMC School of Medicine Departments including PM&R, Neurology, Neurosurgery, Psychiatry, Internal Medicine and Family Medicine. Services were also provided to various hospitals in central Missouri. Assessment training included evaluation of traumatic brain injury, pre-surgical epilepsy assessment, dementia, brain injury secondary to infectious disease, and stroke. Particular emphasis was placed on competence in test administration, interpretation and case conceptualization, the use of appropriate normative data, report writing, and provision of feedback to patients, families, and referral sources. See addendum for tests administered.

Oregon Health & Sciences University (OHSU) – Portland, OR July 2019 - October 2019

Department of Sports Medicine

Supervisor: Tyler Duffield, Ph.D.

Clinical Research Fieldwork - Student Neuropsychology Clinician

Conducted neuropsychological assessments with traumatic brain injury (TBI) and pre-surgical epilepsy patients in a university research hospital setting. Patients ranged in age from 7 to 64. See addendum for tests administered.

Kaiser Permanente NW - Portland, OR

Supervisor: Teresa DaVigo, Ph.D.

Program Development Fellow

June 2018 - June 2019

Advanced Program Development Fellow

June 2019 - October 2019

Student fellow assigned to work on program development projects. Projects included work to develop a pre-Master's training program for Addictions Medicine and Mental Health, developed an internal SharePoint site to help students access resources, developed an external website to help prospective students and programs discover Kaiser Permanente training options, and developed a group supervision program for pre-masters and pre-doctoral students that included case presentations and didactic trainings. Recruited, scheduled and coordinated experts to present didactics for group supervision. Developed and implemented a two-day onboarding and orientation program for pre-masters and pre-doctoral students at Kaiser. Coordinated with supervisors, managers and subject matter experts to create an orientation model that met the needs of all stakeholders and is sustainable moving forward. Transitioned to advanced fellowship status in second year. Completed 8-month Kaiser Permanente Healthcare Certification in Project Management (HCPM) with student orientation as the signature project.

Kaiser Permanente NW - Salem, OR

June 2018 - June 2019

Supervisor: Kim Savage, Ph.D.

Clinical Research Fieldwork - Student Neuropsychology Clinician

Conducted scored and interpreted neuropsychological assessments, wrote integrated reports, and gave patient feedback in a non-profit HMO-based medical facility with co-located mental health services in an outpatient medical setting. Patients ranged in age from 7 to 64, and included persons from diverse populations and individuals with disabilities. See addendum for tests administered.

Kaiser Permanente NW - Salem, OR**June 2017 - June 2018****Supervisors:** Kim Savage, Ph.D. & Catherine deCampos Psy.D., FNP-BC**Practicum II - Student Clinician**

Conducted neuropsychological assessments, wrote integrated reports, gave patient feedback, and provided counseling services in a non-profit HMO-based medical facility with co-located mental health service in an outpatient medical setting. Patients ranged in age from 7 to 64. Counseling tools employed included ACT, CBT, DBT, motivational interviewing, and behavioral activation. Taught multiple 16-week teen DBT skills classes. See addendum for tests administered.

Pacific University Psychology & Comprehensive Health Clinic August 2016 - August 2017**Supervisor:** Michael Christopher, Ph.D.**Practicum I - Student Clinician**

Provided evidence-based counseling services under supervision in a community mental health setting. Patients ranged in age from 18 to 70 and were from a variety of cultural, LGBTQ, and SES backgrounds. Tools employed included ACT, Motivational Interviewing, Gottman method couples counseling, and career counseling. Performed individual counseling, baseline assessments, intake interviews, diagnosis, formulated treatment plans, and conducted outcome assessments. Attended educational seminars onsite. See addendum for tests administered.

William Temple House**Supervisor:** Susan Bettis, Ph.D.**Community Mental Health Counseling Psychology Volunteer August 2015 - August 2017****Community Mental Health Counseling Psychology Intern August 2014 - August 2015**

Provided evidence-based counseling services under supervision in a community mental health setting. Clients ranged in age from 18 to 95 and were from a variety of cultural, LGBTQ, and SES backgrounds. Tools employed included CBT, Motivational Interviewing, Behavioral Activation, Client Centered Therapy, Goal Setting, Self-Efficacy Training, and Strength Based Therapy. Performed individual counseling and formulated treatment plans. Attended educational seminars onsite.

Lines 4 Life**Supervisor:** Deborah Zwetchkenbaum, M.A.**Lead volunteer****August 2011 - August 2015****Practicum Student****January 2011 - June 2011**

400+ hours working as a crisis line operator for Lines For Life's Youthline, Drugline, VA hotline, and Lifeline. For the Youthline calls ranged from issues with family conflict, drugs, abuse, and suicide prevention. For the Drugline most calls involved finding resources for individuals and families looking to detox or who were in need of long term treatment. For the VA hotline calls ranged from requests for services to suicide prevention. On the Lifeline the calls

were primarily suicide prevention. Assisted training of new volunteers. Included 225 hours credited toward CADC I with 57 hours of supervision by a Lines for Life CADC II supervisor.

RESEARCH EXPERIENCE

Recruiting Coordinator

2020 – 2021

Supervisor: Michael Christopher, Ph.D.

School of Graduate Psychology, Pacific University

Project: Coordinated recruiting, managed website, trouble shot study app, worked on baseline assessments, randomization, and data collection for an NIH U01 grant (Award #U01AT009841) looking at mindfulness-based resilience training for aggression, stress and health in law enforcement officers. Helped manage lab, assisted study coordinator.

Research Coordinator

2020

Supervisor: Kimberly Kimchi, Ph.D.

Department of Health Psychology, University of Missouri

Project: Neurosurgery biopsychosocial quality of life & perceived stress intervention efficacy research. Organized and taught research team REDCap research management tools. Coordinated data collection. Worked to verify the accuracy of several additional datasets.

Research Coordinator & Research Assistant

2018 - 2019

Supervisor: Michael Christopher, Ph.D.

School of Graduate Psychology, Pacific University

Project: Coordinated baseline assessments, randomization, and data collection for an NIH U01 grant (Award #U01AT009841) looking at mindfulness-based resilience training for aggression, stress and health in law enforcement officers. Helped manage lab, assisted study coordinator, helped develop active control intervention, scheduled participants and assessors for assessment appointments, conducted assessments.

Research Coordinator

2013 - 2017

Supervisor: Michael Christopher, Ph.D.

School of Graduate Psychology, Pacific University

Project: Coordinated baseline assessments, randomization, and data collection for an NIH R21 grant. Managed lab, scheduled participants and assessors for assessment appointments. Entered data in SPSS for a project testing the use of Mindfulness-Based Resilience Training (MBRT) with members of the Hillsboro Police Department. Verified the accuracy of several additional datasets.

Research Associate

2013 - 2015

Pacific University Consulting Team, Hillsboro, OR

Supervisor: Paul Michael, Ph.D.

Team Member in the Pacific University Consulting Team (P.U.C.T.) research pod

Projects: Assisted research pod leader in collecting measures for a research project on perceived racial discrimination in the workplace.

Undergraduate Research Assistant

2011 - 2013

Supervisor: Donald Truxillo, Ph.D.
Department of Psychology, Portland State University

Responsibilities:

Helped create a survey with questions on organizational commitment, demographics, and personality from a variety of measures into Qualtrics for use on MTurk. Assisted in research for a meta-analysis on the relationship between age, conscientiousness, organizational citizenship behaviors, and job performance. Assisted in research for meta-analysis on the relationship between aging workers' job satisfaction and the availability of telecommuting. Created a multi-measure survey on Qualtrics for a future study using M-Turk

Undergraduate Research Assistant

1996

Supervisor: Kelly Kadera, Ph.D.

Department of Political Science, University of Iowa

Project: Compiled historical data on wars fought between democracies, between democracies and non-democracies, and between non-democracies for a paper by Assistant Professor Kadera on the level of democracy, and the likelihood that countries will go to war.

TEACHING EXPERIENCE

Visiting Assistant Professor

January – May 2021

Reed College

Supervisor: Kathy Oleson, Ph.D. - Dean of the Faculty

Taught 25 undergraduate students an introduction to psychopathology course over Spring semester. Class met for two hours twice per week.

Formal Case Presentation: 1st Lt. De-identified – Overpressure Injury September 2020

University of Missouri DHP

Supervisor: Eric Hart, Psy.D., ABPP

Presented a neuropsychological evaluation on a soldier who experienced bTBI resulting from repetitive blast overpressure exposure during mortar training and combat deployment. Described the acute and chronic symptoms associated with this injury, data on testing, recommendations for treatment, and reviewed the applicable literature. Presentation audience include UM-DHP and VA faculty, postdocs, and interns.

Mental Health & Addiction Medicine Student Orientation

August 2019

Kaiser Permanente NW region

Supervisor: Teresa DaVigo, Ph.D.

Organized, hosted and coordinated a two-day orientation for incoming 2019-2020 Mental Health and Addiction Medicine students for Kaiser Permanente NW. Presented trainings on numerous topics including internal resources, external resources, Kaiser history & culture, goals for supervision, building safety, and clinical ethics. Audience included trainers, practicum students, physicians, and supervisors.

Neuropsychology of Infectious Diseases Didactic Training

April 2019

Kaiser Permanente NW region

Supervisor: Kim Savage, Ph.D.

Gave a one-hour presentation on infectious diseases of the brain and how these infections may present in neuropsychological testing, both during active infection, and post-infection. Audience included trainers, practicum students, physicians, and supervisors.

Neuropsychology of Oncology Didactic Training

March 2019

Kaiser Permanente NW region

Supervisor: Kim Savage, Ph.D.

Gave a one-hour presentation on oncology and how cancer and cancer treatment affect neuropsychological testing results, both during and post cancer treatment. Audience included trainers, practicum students, physicians, and supervisors.

Teaching Assistant – Basic Clinical Skills**Pacific University, Portland, OR****Supervisor:** Jane Tram, Ph.D.

Taught a lab section to 10-12 students in Basic Clinical Skills, a required course for first year graduate students in the School of Graduate Psychology. Provided instruction and feedback on mock therapy videos with a focus on developing therapeutic alliances and expressing unconditional positive regard with mock clients. Focused on helping students develop empathy and active listening. Class included 40 graduate students.

September – December 2017**September – December 2016****Guest Lecturer – Psychology 101****Portland Community College, Portland, OR****Supervisor:** Cynthia Golledge, Ph.D.

Activity: Gave an hour lecture on mindfulness and CBT in two sections of Psych 101. Lecture provided a history of both tools as well as a brief overview of the applications, strengths, and weaknesses. Classes each included 40 undergraduate students.

September 2016**Portland Public Schools Classroom Volunteer****Harriet Tubman Girls Leadership Academy, Portland, OR****Supervisor:** Professor Sarah Bunton, Ph.D.

Classroom volunteer assisting social studies & English teacher with classroom activities. Helped middle school students with assignments one-on-one. Led a team of PSU students that ran a book drive for the school that resulted in the donation of more than 2,000 books. As leader of the book drive, coordinated advertising, marketing, and logistics. Class included 20 middle school students.

January - June 2012

ADDITIONAL EXPERIENCE

Chief Operating Officer (COO)**Coho Industries, LLC****2017-2022**

Founder and co-owner. Provided preliminary research which was instrumental in identifying a need for vital monitoring and communication technology among first responders, and uncovering the potential for this technology to save first responder's lives. Brings skills in marketing, logistics and supply chain management, and project management to the team. Co-inventor of United States Patent No: 10,902,714 B2 Systems and Methods for Reducing Adverse Health Events in First Responders.

Club President**Portland State University Psychology Club, Portland, OR****Supervisor:** Suzanne M. Flores, M.Ed.

Projects: Responsible for organization and administration of the club. Scheduled and staffed volunteer activities including recruiting tables at the PSU Party in the Park. Led a successful effort to organize collaboration between the PSU Psychology Advising Office, the PSU Career Center, Students for Awareness of Neuroscience Education (S.A.N.E.), and Psi Chi to increase attendance at and awareness of collaborator events. These efforts increased average attendance by more than 600%. Organized a career workshop for psychology majors with bachelor's degrees

2012 - 2013

featuring speakers from the PSU Career Center. Organized a speaking event with PSU Professor Donald Truxillo to inform students about the field of Industrial Organizational Psychology. Organized a major collaboration event between the PSU Psychology Club, SANE, Psi Chi, The PSU Psychology Advising Office, and the PSU Career Center featuring seven Ph.D. Panelists assembled to discuss the psychology of love and sex.

Club Vice President

2012

Portland State University Psychology Club, Portland, OR

Supervisor: Suzanne M. Flores, M.Ed.

Assisted the club president.
